Author Index

Auroux, A., see Le Bars, J. 179

Baerns, M., see Le Bars, J. 179

Bailey, O.H., Montag, R.A. and Yoo, J.S.
Methacrylic acid synthesis. I. Condensation of propionic acid with formaldehyde over alkali metal cation on silica catalysts 163

Barrault, J., Grosset, C., Dion, M., Ganne, M. and Tournoux, M.
Lamellar perovskites $M^{I}(A_{n-1}B_nO_{3n+1})$ catalysts for oxidative coupling of methane 197

Bonchev, D.G., see Kaminski, D.I. 1

Burch, R. and Petch, M.I.
Investigation of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 39

Burch, R. and Petch, M.I.
Investigation of the reactions of acetaldehyde on promoted rhodium catalysts 61

Burch, R. and Petch, M.I.
Kinetic and transient kinetic investigations of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 77

Cavani, F. and Trifir, F.
Some innovative aspects in the production of monomers via catalyzed oxidation processes – a Review 115

Daza, L., see Rodrigo, M.T. 101

Dion, M., see Barrault, J. 197

Fujii, K., see Yokoyama, T. 149

Fujita, N., see Yokoyama, T. 149

Ganne, M., see Barrault, J. 197

Grosset, C., see Barrault, J. 197

Hamada, H., Kintaichi, Y., Sasaki, M., Ito, T. and Yoshinari, T.
High efficiency of alumina and H-zeolite catalysts for selective reduction of nitrogen monoxide by methanol in the presence of oxygen and water vapor L1

Hori, M., see Mizushima, Y. 137

Ito, T., see Hamada, H. L1

Kaminski, D.I., Temkin, O.N. and Bonchev, D.G.
Reaction network for the epoxidation reaction of alkenes with organic hydroperoxides 1

Kintaichi, Y., see Hamada, H. L1

Le Bars, J., Vedrine, J.C., Auroux, A., Trautmann, S. and Baerns, M.
Role of surface acidity on vanadia/silica catalysts used in the oxidative dehydrogenation of ethane 179

Maki, T., see Yokoyama, T. 149

Mendioroz, S., see Rodrigo, M.T. 101

Mizushima, Y. and Hori, M.
Alumina aerogel for support of a methane combustion catalyst 137

Montag, R.A., see Bailey, O.H. 163

Nakajima, M., see Yokoyama, T. 149

Petch, M.I., see Burch, R. 39

Petch, M.I., see Burch, R. 61

Petch, M.I., see Burch, R. 77

Rodrigo, M.T., Daza, L. and Mendioroz, S.
Nickel supported on natural silicates: Activity and selectivity in sunflower seed oil hydrogenation 101

Saitoh, F., see Wada, K. 23

Sasaki, M., see Hamada, H. L1

Setoyama, T., see Yokoyama, T. 149

Suzuki, T., see Wada, K. 23

Temkin, O.N., see Kaminski, D.I. 1

Tjatjopoulos, G.J. and Vasalos, I.A.
Reaction-path analysis of a homogeneous methane oxidative coupling mechanism 213

Tournoux, M., see Barrault, J. 197

Trautmann, S., see Le Bars, J. 179

Trifir, F., see Cavani, F. 115

Vasalos, I.A., see Tjatjopoulos, G.J. 213

Vedrine, J.C., see Le Bars, J. 179

Wada, K., Watanabe, Y., Saitoh, F. and Suzuki, T.
Oxidative methylation and ethane with methane to propane and propene using rare earth oxide-based catalysts 23

Watanabe, Y., see Wada, K. 23

Yokoyama, T., Setoyama, T., Fujita, N., Nakajima, M., Maki, T. and Fujii, K.
Novel direct hydrogenation process of aromatic carboxylic acids to the corresponding aldehydes with zirconia catalyst 149

Yoo, J.S., see Bailey, O.H. 163

Yoshinari, T., see Hamada, H. L1

Subject Index

Acetaldehyde
Investigation of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 39

Acetaldehyde
Kinetic and transient kinetic investigations of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 77

Acetaldehyde reactions
Investigation of the reactions of acetaldehyde on promoted rhodium catalysts 61

Aerogel
Alumina aerogel for support of a methane combustion catalyst 137

Alkali metal cation
Methacrylic acid synthesis. I. Condensation of propionic acid with formaldehyde over alkali metal cation on silica catalysts 163

Alkali oxide promotion
Investigation of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 39

Alkenes
Reaction network for the epoxidation reaction of alkenes with organic hydroperoxides 1

Alumina
High efficiency of alumina and H-zeolite catalysts for selective reduction of nitrogen monoxide by methanol in the presence of oxygen and water vapor L1

Alumina aerogel
Alumina aerogel for support of a methane combustion catalyst 137

Aromatic aldehydes
Novel direct hydrogenation process of aromatic carboxylic acids to the corresponding aldehydes with zirconia catalyst 149

Carbon monoxide/hydrogen
Investigation of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 39

Carbon monoxide/hydrogen
Investigation of the reactions of acetaldehyde on promoted rhodium catalysts 61

Carboxylic acid
Novel direct hydrogenation process of aromatic carboxylic acids to the corresponding aldehydes with zirconia catalyst 149

Catalyst characterization (TEM, XPS, XRD)
Nickel supported on natural silicates: Activity and selectivity in sunflower seed oil hydrogenation 101

Catalyst preparation (impregnation, precipitation)
Nickel supported on natural silicates: Activity and selectivity in sunflower seed oil hydrogenation 101

Cobalt/alumina
High efficiency of alumina and H-zeolite catalysts for selective reduction of nitrogen monoxide by methanol in the presence of oxygen and water vapor L1

Combustion catalyst
Alumina aerogel for support of a methane combustion catalyst 137

Condensation
Methacrylic acid synthesis. I. Condensation of propionic acid with formaldehyde over alkali metal cation on silica catalysts 163

Cu-ZSM-5
High efficiency of alumina and H-zeolite catalysts for selective reduction of nitrogen monoxide by methanol in the presence of oxygen and water vapor L1

Design of catalysts
Reaction-path analysis of a homogeneous methane oxidative coupling mechanism 213

Epoxidation
Reaction network for the epoxidation reaction of alkenes with organic hydroperoxides 1

Ethane
Role of surface acidity on vanadia/silica catalysts used in the oxidative dehydrogenation of ethane 179

Ethanol
Investigation of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 39

Ethanol
Investigation of the reactions of acetaldehyde on promoted rhodium catalysts 61

Ethanol
Kinetic and transient kinetic investigations of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 77
Ethanol
High efficiency of alumina and H-zeolite catalysts for selective reduction of nitrogen monoxide by methanol in the presence of oxygen and water vapor L1
Europium oxide
Oxidative methylation and ethane with methane to propane and propene using rare earth oxide-based catalysts 23
Formaldehyde
Methacrylic acid synthesis. I. Condensation of propionic acid with formaldehyde over alkali metal cation on silica catalysts 163
Graph theory
Reaction network for the epoxidation reaction of alkenes with organic hydroperoxides 1
H-ZSM-5
High efficiency of alumina and H-zeolite catalysts for selective reduction of nitrogen monoxide by methanol in the presence of oxygen and water vapor L1
Heterogeneous catalysis
Some innovative aspects in the production of monomers via catalyzed oxidation processes – a Review 115
Homogeneous catalysis
Some innovative aspects in the production of monomers via catalyzed oxidation processes – a Review 115
Hydrogenation
Investigation of the reactions of acetaldehyde on promoted rhodium catalysts 61
Hydrogenation
Novel direct hydrogenation process of aromatic carboxylic acids to the corresponding aldehydes with zirconia catalyst 149
Industrial environment
Some innovative aspects in the production of monomers via catalyzed oxidation processes – a Review 115
Iron oxide promotion
Investigation of the reactions of acetaldehyde on promoted rhodium catalysts 61
Kinetics
Reaction network for the epoxidation reaction of alkenes with organic hydroperoxides 1
Kinetics
Kinetic and transient kinetic investigations of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 77
Kinetics
Nickel supported on natural silicates: Activity and selectivity in sunflower seed oil hydrogenation 101
Lamellar perovskites
Lamellar perovskites $M^{I}(A_{n-1}B_nO_{3n+1})$ catalysts for oxidative coupling of methane 197
Lanthanum oxide
Oxidative methylation and ethane with methane to propane and propene using rare earth oxide-based catalysts 23
Mathematical Modeling
Reaction network for the epoxidation reaction of alkenes with organic hydroperoxides 1
Methane combustion
Alumina aerogel for support of a methane combustion catalyst 137
Methane oxidative coupling
Lamellar perovskites $M^{I}(A_{n-1}B_nO_{3n+1})$ catalysts for oxidative coupling of methane 197
Methane oxidative coupling (homogeneous)
Reaction-path analysis of a homogeneous methane oxidative coupling mechanism 213
Methanol
Investigation of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 39
Methanol
High efficiency of alumina and H-zeolite catalysts for selective reduction of nitrogen monoxide by methanol in the presence of oxygen and water vapor L1
Methylation
Oxidative methylation and ethane with methane to propane and propene using rare earth oxide-based catalysts 23
Monomers
Some innovative aspects in the production of monomers via catalyzed oxidation processes – a Review 115

Nickel/silicate
Nickel supported on natural silicates: Activity and selectivity in sunflower seed oil hydrogenation 101
Nitric oxide
High efficiency of alumina and H-zeolite catalysts for selective reduction of nitrogen monoxide by methanol in the presence of oxygen and water vapor L1
Oxidative coupling
Lamellar perovskites $M^{I}(A_{n-1}B_nO_{3n+1})$ catalysts for oxidative coupling of methane 197
Oxidative coupling (homogeneous
Reaction-path analysis of a homogeneous methane oxidative coupling mechanism 213
Oxidative dehydrogenation
Role of surface acidity on vanadia/silica catalysts used in the oxidative dehydrogenation of ethane 179
Oxidative methylation
Oxidative methylation and ethane with methane to propane and propene using rare earth oxide-based catalysts 23
Oxygenates
Investigation of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 39
Oxygenates
Kinetic and transient kinetic investigations of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 77
Palladium
Alumina aerogel for support of a methane combustion catalyst 137
Perovskites
Lamellar perovskites $M^{I}(A_{n-1}B_nO_{3n+1})$ catalysts for oxidative coupling of methane 197
Platinum
Alumina aerogel for support of a methane combustion catalyst 137
Promoters
Investigation of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 39
Promoters
Investigation of the reactions of acetaldehyde on promoted rhodium catalysts 61
Propane synthesis
Oxidative methylation and ethane with methane to propane and propene using rare earth oxide-based catalysts 23
Propene synthesis
Oxidative methylation and ethane with methane to propane and propene using rare earth oxide-based catalysts 23
Propionic acid
Methacrylic acid synthesis. I. Condensation of propionic acid with formaldehyde over alkali metal cation on silica catalysts 163
Rare earth oxides
Oxidative methylation and ethane with methane to propane and propene using rare earth oxide-based catalysts 23
Reaction-path analysis
Reaction-path analysis of a homogeneous methane oxidative coupling mechanism 213
Rhodium
Investigation of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 39
Rhodium
Investigation of the reactions of acetaldehyde on promoted rhodium catalysts 61
Rhodium/silica
Kinetic and transient kinetic investigations of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 77
Selective catalytic reduction
High efficiency of alumina and H-zeolite catalysts for selective reduction of nitrogen monoxide by methanol in the presence of oxygen and water vapor L1
Selective oxidation
Some innovative aspects in the production of monomers via catalyzed oxidation processes – a Review 115
Silica
Methacrylic acid synthesis. I. Condensation of propionic acid with formaldehyde over alkali metal cation on silica catalysts 163
Sunflower seed oil hydrogenation
Nickel supported on natural silicates: Activity and selectivity in sunflower seed oil hydrogenation 101

Surface acidity
Role of surface acidity on vanadia/silica catalysts used in the oxidative dehydrogenation of ethane 179
Syngas conversion
Kinetic and transient kinetic investigations of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 77
Syngas reactions
Investigation of the synthesis of oxygenates from carbon monoxide/hydrogen mixtures on supported rhodium catalysts 39
Syngas reactions
Investigation of the reactions of acetaldehyde on promoted rhodium catalysts 61
Triglyceride hydrogenation
Nickel supported on natural silicates: Activity and selectivity in sunflower seed oil hydrogenation 101
Vanadia/silica
Role of surface acidity on vanadia/silica catalysts used in the oxidative dehydrogenation of ethane 179
Vegetable oil hydrogenation
Nickel supported on natural silicates: Activity and selectivity in sunflower seed oil hydrogenation 101
Zeolites
High efficiency of alumina and H-zeolite catalysts for selective reduction of nitrogen monoxide by methanol in the presence of oxygen and water vapor L1
Zirconia
Novel direct hydrogenation process of aromatic carboxylic acids to the corresponding aldehydes with zirconia catalyst 149
ZSM-5
High efficiency of alumina and H-zeolite catalysts for selective reduction of nitrogen monoxide by methanol in the presence of oxygen and water vapor L1
